RE: Schulte v. U.S., 22-cv-5841 (ERK)

Dear Judge Komitee:

Today's Tuesday March 21st, I finally received the government letters dated March 3, 2023. The envelope is postmarked 10 days ~~later~~ later on March 13, 2023, ~~which is~~

The government should have notified the Court of this delay, and I hope in the future that the government provides me a copy at the same time it provides the Court.

The government's letter was incomplete, however, as it did ~~not~~ not provide Exhibit E. See e.g. the government's opposition at 5. "After the execution of the MDC cell search warrant, a supplemental search warrant was issued to seize three additional hard drives." To date, the government has NEVER provided any such search warrant to me. I ask the Court to order the government to provide me this warrant since it saw fit to include it in its motion. I also ask the Court to provide me (if it has not already done so) a copy of my Rule 4(g) Motion including my exhibits so that I can properly reference the motion; the MDC does not allow me to make copies. ~~Once I receive these materials~~ Once I receive these materials I ask the Court ~~to provide~~ for approximately 6 weeks to file my reply; I do not expect a long reply, but my disability impedes me. The MDC recently provided me with a typewriter that I will attempt to use.

Finally, I have not received any opposition motions from the government with respect to my motions to remove the illegal search warrants from Seal and amended complaint (which I hope the Court has received).

3/21/23

Respectfully Submitted,
Josh Schulte
